

# ECG

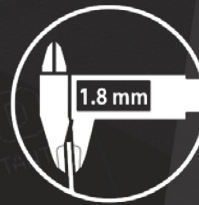

# BUSINESS CARD

Created to detect Arrhythmias and / or abnormal heart rates, the ECG business card is tiny, flexible and wirelessly charged. Digitized changes of abnormal heart rhythm detected by the sensors are automatically transferred using Bluetooth to mobile devices, while simultaneously being uploaded directly to Google, Amazon, and Samsung, Azure or any private cloud storage solution. It is easy to use and operate. Available a White Label Technology.

## WE HELP YOU **SENSE CHANGES** IN REAL-TIME!

MIRCOD IoT platform offering OTA functionality, Mobile Application Reference Software (iOS and Android) and unique firmware that adapts the provided PCB or SIP to optimize performance in varied usage conditions. Due to its small form-factor and wireless charging capabilities Mircod PCB or SiP can be easily integrated into an application where size and accessibility are at a premium.

Ultra thin
